Approved: Motorsport Australia – ARC Sporting Manager – 14/07/2022

This Bulletin contains:

1. Testing details
2. RSLITE App instructions and use
3. Novice Reconnaissance Schedule
4. Attachments – Seeded List of Entries

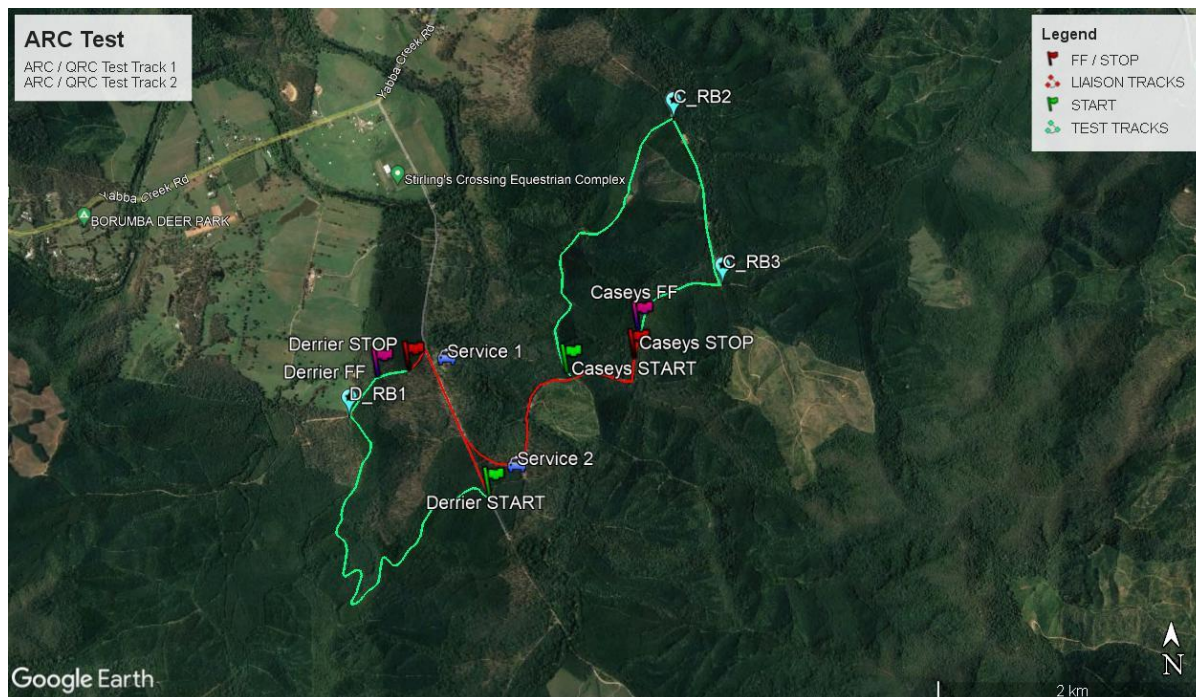

1. Testing

Map Directions from Gympie Showgrounds via Imbil

GPS location for Test Service Area is: S26*30'132 / E152*37'680

Test Tracks

Testing will commence at 1230hrs and finish at 1630hrs on Thursday 21 July. A road book containing instructions from Gympie Showgrounds and return, including test stages, will be emailed to those crews who have already arranged testing.

2. Use of “RSLITE” Recce Phone Application

The organisers of the Accent Benchtops Rally Queensland will be using RSLITE phone application for Reconnaissance at this year’s event. As such, ALL competitors undertaking Reconnaissance are to download the app from their respective App Store during Reconnaissance.

RSLITE Recce Information

The purpose of the application is to allow the organisation to track competitors in the forest during recce, so we know where competitors are and also to allow for speeds to be tracked and enforced. Any Breach of Reconnaissance Rules will be referred to the stewards for application of penalties. RSLITE also removes the requirement for the Organisers to place Officials at the start and finish of each special stage.

ARC Crews: RSLITE invite codes will be available from the event secretary at documentation.

QRC/Clubman/Novice: RSLITE invite codes will be available from the event secretary on Saturday 16 July at Scrutineering, on Sunday 17 July at Gympie Showgrounds (between 7am and 8am) prior to Recce, or at documentation at the Event Secretariat office on Thursday 21 & Friday 22 July.

NOTE: RSLITE must be active on a phone in the recce vehicle during reconnaissance.

RS Lite Usage for 2022

20/05/2022

New RS Lite from RallySafe. The free app is available on the Google Play and Apple App store. Competitors are responsible for having a device capable of using the app with GPS tracking and a battery lasting the entirety of recce. Considerations should be made to make sure the phone or tablet can be charged and there are no 3rd party applications that may disable GPS tracking.

QR CODE FOR BOTH HERE:

(Google Play Store)

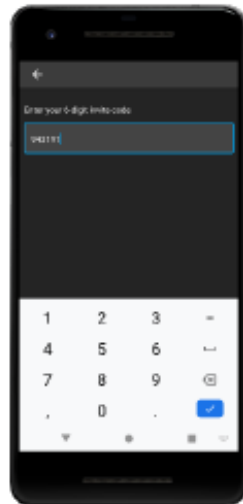

(Apple App Store)

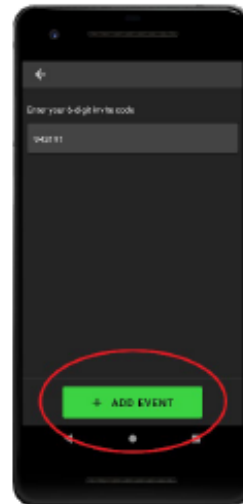

When you arrive and check in at the event, each car number will be given a unique code to enter into the app.

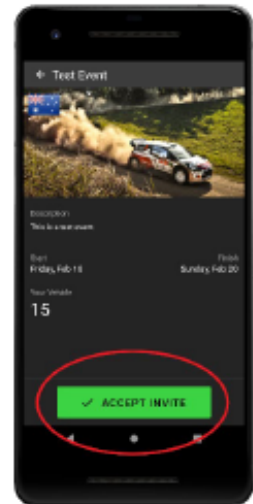

Main Screen when app is opened. Click "add event".

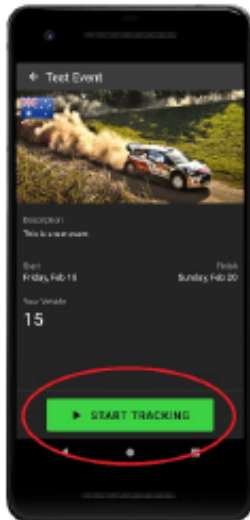

Enter unique code.

Click add event.

Click accept invite.

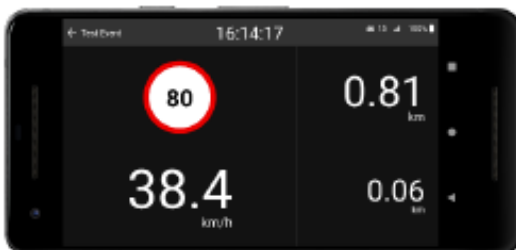

Click start tracking when beginning recce.

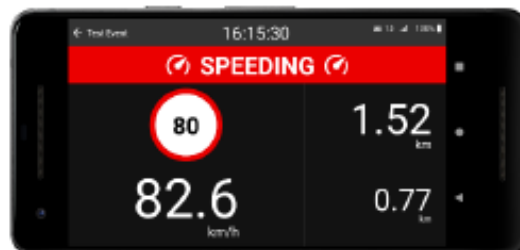

Main Screen off stage when tracking.

When logged into the event with your code, the main screen will display your current speed and two odometers. Both odometers can be reset by pressing and holding the mileage.

As you arrive to a stage, the screen will display the maximum KPH allowed, along with the odometers and your current speed. If you exceed the allowed speed limit, a red bar speeding message will be displayed at the top of the screen.

80kph is the speed limit.

Note the speeding message.

When you begin recce, the application must be active on your phone and stay active during transits and while on stages. The phone can be used for other uses such as texting, navigation, etc. but should stay on the RS Lite app as much as possible during transits and at all times on stages. Your position, speed, and direction of travel will be monitored during the recce period

Additionally, if the app is forcefully disabled on stage, a report is generated and may result in an infraction being applied. With privacy concerns in mind, the app does not track or send data if it is not active on the screen. Because of this, competitors must make sure the app is active during recce. If the app doesn't report for an extended period of time during recce, an alert is sent in the monitoring system.

Questions can be directed to Jobe Sims at Jobe@statusas.com
